

UPSKILLED Upskilling educators for the AI era

Project's Details

Project Title: AI - Upskilled - Upskilling for the Educational Technological Transformation

Grant No.: 2025-1-ES01-KA220-HED-000355590

Duration: start: 10/25, end: 01/28

Budget: 400.00,00 €

Coordinator: University of the Balearic Islands (UIB) – Spain

European Consortium: The AI-Upskilled consortium consists of six organisations from five European countries, contributing extensive expertise in higher education, adult education, vocational training, and digital transformation:

- University of the Balearic Islands (UIB) – Spain (Coordinator)
- ISQ e-learning, SA – Portugal
- INNOPARES Consultores y Formadores, SL – Spain
- Masaryk University – Czech Republic
- Frederick University – Cyprus
- Medea Lab Research and Policy Consultants G.P. – Greece

Website: <https://ai-upskilled.eu/>

Aim: The AI-Upskilled project aims to strengthen teachers' capacities to integrate artificial intelligence into teaching in a critical, ethical, and effective way.

The Institute for Educational Research and Innovation (IRIE) at the University of the Balearic Islands (UIB) coordinates the European project AI-Upskilled (Upskilling for the Educational Technological Transformation), whose goal is to enhance the skills of higher education, adult education, vocational training, and youth programme teachers so they can integrate artificial intelligence (AI) into their teaching critically, ethically, and effectively.

Co-funded by
the European Union

The "AI-Upskilled" project is co-funded by the European Union. The views and opinions expressed in this resource/document/material are solely those of the author(s) (project partners) and do not necessarily reflect those of the European Union or the Spanish Service for the Internationalisation of Education (SEPIE). Neither the European Union nor the National Agency SEPIE can be held responsible for them.

Project's Details

Impact: The project, selected under the 2025 Erasmus+ KA220-HED call, will be carried out in collaboration with institutions from Spain, Portugal, the Czech Republic, Cyprus, and Greece. During the project, the consortium will develop:

- A competence matrix for integrating AI into higher education,
- A micro-credential focused on the use of AI in learning,
- Gamified training programmes, and
- An online repository of educational AI resources.

The project will also produce a policy guide and recommendations for the responsible and inclusive use of AI in education.
